

Morgan County School
Response to Intervention
Parent Notification Letter
Math

Student _____

Date _____

Dear Parent,

Three times a year, each student in Morgan County Schools is given a universal screening assessment to determine his or her math abilities. Your child's scores show that he/she is experiencing some challenges in math in the following area:

_____ *Math Calculation*- The knowledge and retrieval of facts and the application of procedural knowledge in calculation.

_____ *Math Problem Solving*- Involves using mathematical computation skills, language, reasoning, reading, and visual-spatial skills in solving problems; applying mathematical knowledge at the conceptual level.

Although your child is receiving direct math instruction daily in Tier I (general classroom instruction), he/she will now be receiving:

_____ 20-30 minutes of math intervention each day in Tier II.

Intervention: _____

Skills addressed: _____

_____ 40-60 minutes of math instruction each day in Tier III.

Intervention: _____

Skills addressed: _____

Math intervention will be done in small groups with trained personnel using research based materials. Your child's progress will be monitored every two weeks or more. Your child's vision and hearing will be screened by the school nurse to rule out any difficulties in these areas which may affect progress in the classroom. Additional assessments may be completed in order to inform instruction and intervention. It is our goal to provide the best instruction and materials to help your child succeed.

We encourage you, as the parent or guardian, to ask your child to share his/her math work with you regularly. Continue to encourage your child to do his/her best and let them know you believe in his/her ability to improve. If you have questions or would like more information, please contact your child's teacher.

Respectfully,
